Page Two

Why are you interested in serving on the commission?

Living in the town for the last 2.5 years has made me realize the value of the community that we live in, mostly from a people perspective. I also recognize that the policies and land use have a large impact on the community feel. I want to use my skills to contribute to the goals of the Town and to ensure that Frisco maintains this community feel for a long time to come.

Why do you believe you are qualified for appointment?

My background is in engineering and real estate, both of which provide overlap with the Planning Commission. I feel there is a balance to be obtained in development for growth and enhancement while maintaining the community feel and minimizing the indirect impacts of the development. I also believe in building consensus in a vision and process (policy) so that the results have buy in from all.

What training, experience, education, or skills do you have that would enhance your ability to serve on the commission?

I am professional engineer with a focus in transportation. I am also a realtor working in Summit County, so I understand the housing crisis (and codes), and and I have watched the evolution of the regulations over the last few years. I am currently on the board of the Summit County Preschool, and have seen the impacts on the workforce and childcare.

What do you think are the major issues facing the Town of Frisco?

Affordable housing is the most critical issue facing the town. It is important to understand everyone's goals, and find incentives so that all parties can win. This issue feeds into the other issues such as workforce, childcare, and short term rentals.

Thanks for your consideration!

Please read the following, then sign and date.

- I certify that the facts are true and correct contained in this Commission Application.
- I further certify that I have not been convicted of a felony under the laws of the State of Colorado or in another jurisdiction.
- I understand that falsification, omission or misrepresentation can result in a rejection of this application.
