Page Two

Why are you interested in serving on the commission? _____

I have fallen in love with Frisco - the parks, the bike paths, the community spirit. All of the things that make Frisco what it is today are the result of decades of hard work by those who have served before. It would be a privilege to serve on the commission to continue this tradition of thoughtful development that aligns with the guiding principles of the 2019 Master Plan.

Why do you believe you are qualified for appointment? _____

As a full time resident who is committed to being here for at least the next 20 years, I am fully invested in the future of Frisco. My engineering experience includes regular decision-making activities that must consider both technical information as well as the needs of stakeholders and end users. As founder of a successful engineering firm, I understand the challenges of small businesses.

What training, experience, education, or skills do you have that would enhance your ability to serve on the commission? _____

I feel that my unique architectural engineering background, experience in major construction projects and working knowledge of applicable building codes could be a benefit to the commission.

What do you think are the major issues facing the Town of Frisco? _____

1. Replacement of existing buildings to construct new developments, and ensuring that the town character and neighborhoods are maintained while developing more housing for local workers
2. Pedestrian access to the marina, parks, and bike paths
3. Parking vs. bike usage on Main Street

Please read the following, then sign and date.

- I certify that the facts are true and correct contained in this Commission Application.
- I further certify that I have not been convicted of a felony under the laws of the State of Colorado or in another jurisdiction.
- I understand that falsification, omission or misrepresentation can result in a rejection of this application.
