January 22, 2021

Hello,

We are super excited to have our case heard in front of the Town of Frisco board. As we stated in our first letter to the board (Feb.27, 2020), our long-time love of Frisco and the ability to incorporate a bathroom and shower would increase the enjoyment of our cabin and time spent here in our retirement for us and our family. We would also be able to make use of the sewer line we installed in the 1990's. We hope you feel that these are sufficient reasons to issue a water permit for Lot 153 in Bills Ranch.

Since our last request, we have received permission from Xcel to run a gas line to the property.

We look forward to your review and a positive result.  
Thank you for your time,

Craig and Marilyne Mansfield
